The Daily Standard. Saturday, November 5, 1870.

Representation of Vancouver Is-The nomination of candidates to represent Nanaimo-Comox District, and Victoria District will come off to-day; C. FRANCIS BARNA. TU and on Saturday next the nomination for Victoria city district will take place. Now it is not always in the excitement incident to a contested election that principles win, The personal qualities of the candidates, and the likes and dislikes of their friends and supporters too often enter largely into the contest rather than measures. It may be unfortunate that this is so, but that it is so is as undoubted as it is lamentable. We have no wish to be understood that personal qualities in a candidate ought to be overlooked; on the contrary we hold that certain personal qualifications are absolutely essential to any candidate: and these are honesty and capacity. In elections, however, owing to the likes and dislikes of electors, availability—the quality of being popular with the electorsvery often takes precedence to honesty and capacity. Honesty and capacity (and we will not altogether ignore avail ability) being given, we think that measures and not men should prevail. In the election that commences to-day we would have much preferred to see the Island elections conducted without a contest in any district; for there is a paramount necessity in our judgment to unite the whole Island population determinedly in favor of amending the terms of Confederation so as to gain two points-the terminus and protection for our farmers in which the terms of Confederation seem to be seriously defective. But events have rendered that impossible. Hence we have only to impress on the electors the necessity of being certain that what—
ever candidate they may vote for,
he will use every effort to secure both.

NEXT SATURDAY EVENING. THE
security of the security of t We have already in different issues of this journal expressed our belief that there ought to be an amendment to the the Terms of Confederation, making it an imperative condition that the terminus of the Trops-Continental Railway shall be at Esquimalt and Victoria, and that in case it is not brought via Johnson Straits, that a line of railway shall be constructed between Victoria and Nanaimo. We consider that this point ought to be made the chief point at the election, and no candidate ought to be doubtful on this candidate ought to b no candidate ought to be doubtful on this not measure. For unless the terminus be here, our trade will go to the Mainland and the Seat of Government will follow in its wake. We repeat therefore that we view the terminus question as the paramount interest of Vancouver Island. and it remains for the electors to see that that interest will be properly represented. The next point, the tariff, will affect most materially, commerce, agriculture, and general industry. The sentiment of this BELLA BIRD DRAMATIC city, Nanaimo, and the mining and central agricultural districts of the Mainland, being in favor of the Canadian rather than the British Columbian tariff -it is morally certain that it will be adopted; for the representatives of Victoria District, Nanaimo-Comox, and New Westminster will only number three Miss Annie and Minnie Pixley against six. Hence, the representatives of the purely agricultural districts of the Lower Fraser and the Island will be in a minority. Now, the commercial and interior interest being satisfied by the adoption of the Canadian tariff, we may naturally expect that the agricultural interest on the Lower Fraser and on this Island will not be allowed to suffer simply because there is a majority in favor of the Canadian tariff. We may, therefore, hope that provision will be made to allow Harbor Dues to be imposed, for a certain period, by the Local Government, for the protection of agriculture ; or that the protective duties in the British Columbia tariff will be joined to the Canadian tariff, and, unitedly, the two become the tariff of the Dominion for the Pacific coast. Protection for the agricultural interests of the Island is a matter that cannot be overlooked, either by the electors of this city or of the country Districts. Opinion may be divided in this city as to whether a measure of protection to our farmers be desirable, but we sincerely hope that those who have votes to cast will prefer to cast them for candidates who will labor to protect the farmer, rather than for those who will expose our infant agriculture to competition in our own market with foreign produce, and thus retard the development of our own country. The terminus and the tariff affect industrythe production and accumulation of

among our Island representatives on these points. To destroy agriculture to foster commerce, or to destroy commerce to atimulate farming, is not desirable; but a concession from one side to the other, to advance each interest, will serve to enrich both. Memory presides over the past. Fell's Coffee over the present. The first lives in a

wealth on this Island; and are, conse-

quently, so much the more important,

and deserving of the special attention of

the electors. Whatever differences of

opinion there may be, let there be none
